

LANGHE NEBBIOLO Pian delle Mole

PRODUCTION AREA

La Morra – Serradenari
Novello from 2022

VARIETY, PLANTING DENSITY

100% Nebbiolo, Guyot Poussard, 6500 vines per Ha

YEAR OF PLANTING

2001 and 2015

ASPECT

North

ALTITUDE

500 meters (1640ft)

SUBSOIL

Tortonian with sandy and marly soil.

HARVEST

Manual

VINIFICATION

By gravity. Full de-stemming, no crushing. Spontaneous fermentation in steel tanks for at least 15 days with delicate pumping overs.

AGING

About 18 months in closed 60-HI truncated cone-shaped wooden vats and 3 months in bottle.

THE VINEYARD

Langhe Nebbiolo “Pian delle Mole” owes its name to the the parcel where an old millstone was found underground when planting the namesake vineyard. From 2022 it is blend of grapes coming from our vineyards in Serradenari and a little plot in the municipality of Novello. The heart of the blend is a single vineyard in Serradenari, characterized by north exposure. The vineyard is located on a gentle slope surrounded by the forest. Half of the soil is made of silt, while the other half is composed of clay and sand. Depending on weather condition another part of the blend could be represented by the grapes coming from La Tartufaia vineyard.
